SEED ROUND · 2026

Fabrikam turns idle truck space into same-day freight

A marketplace that fills the 31% of truck capacity that drives empty every day

Maya Lindqvist, CEO · October 2026

Every third truck on the road is driving with empty space

31%

of regional truck capacity runs empty

Small shippers still pay for full loads or wait days for consolidated freight.

SOLUTION

Shippers book spare space in minutes and it moves the same day

01

Post a load

Shippers enter size, pickup and deadline in under a minute

02

Match live capacity

We match loads to trucks already on the route, priced in real time

03

Track to the door

Live tracking and proof of delivery in one link

04

Carriers get paid

Carriers earn on space that used to drive empty, paid within 48 hours

MARKET

Regional part-load freight is a €14B market in our first three countries

€14B

Total addressable market

Part-load regional freight, DE · NL · PL

€2.1B

Serviceable market

Shippers under 50 loads a month

€160M

Obtainable by 2029

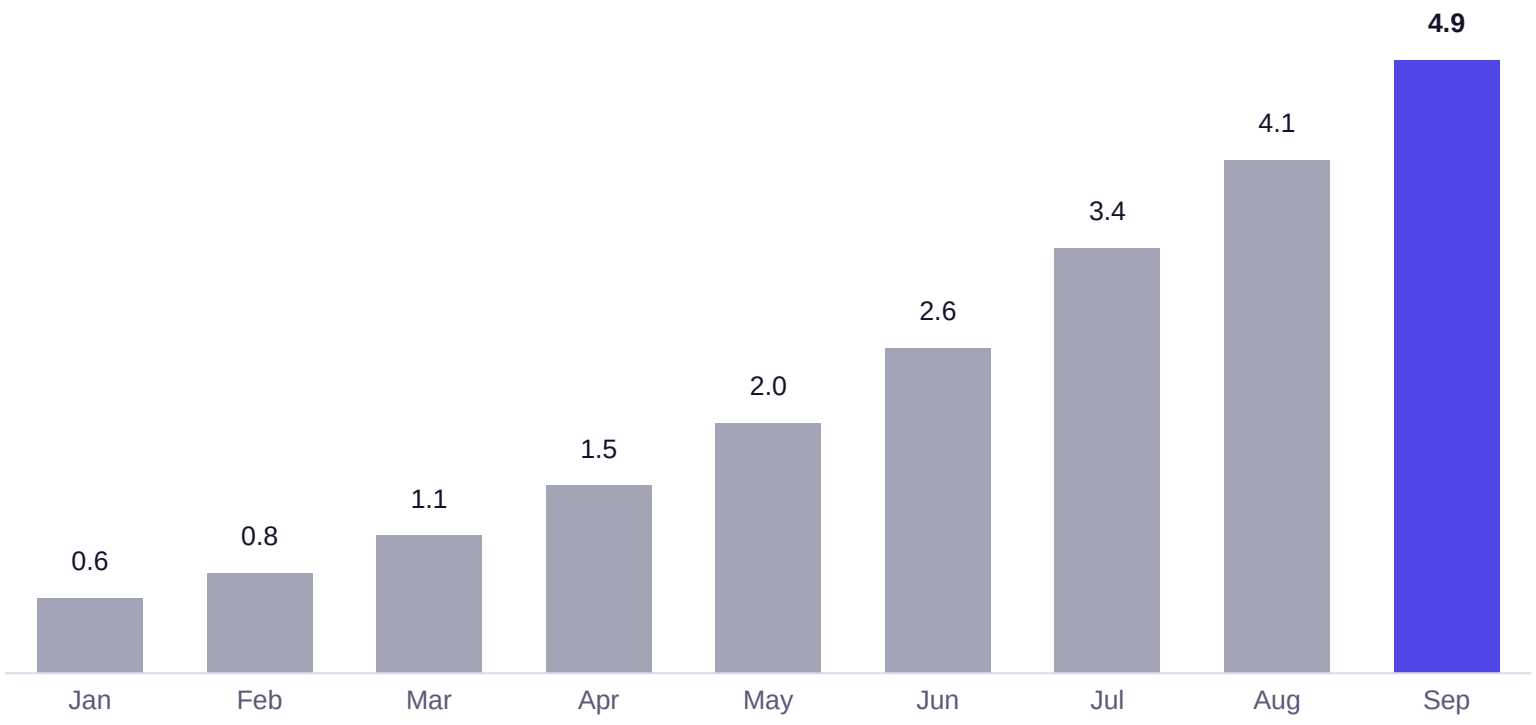

7.5% of serviceable market

TRACTION

Monthly bookings grew eight-fold in nine months with no paid marketing

Loads booked per month, thousands

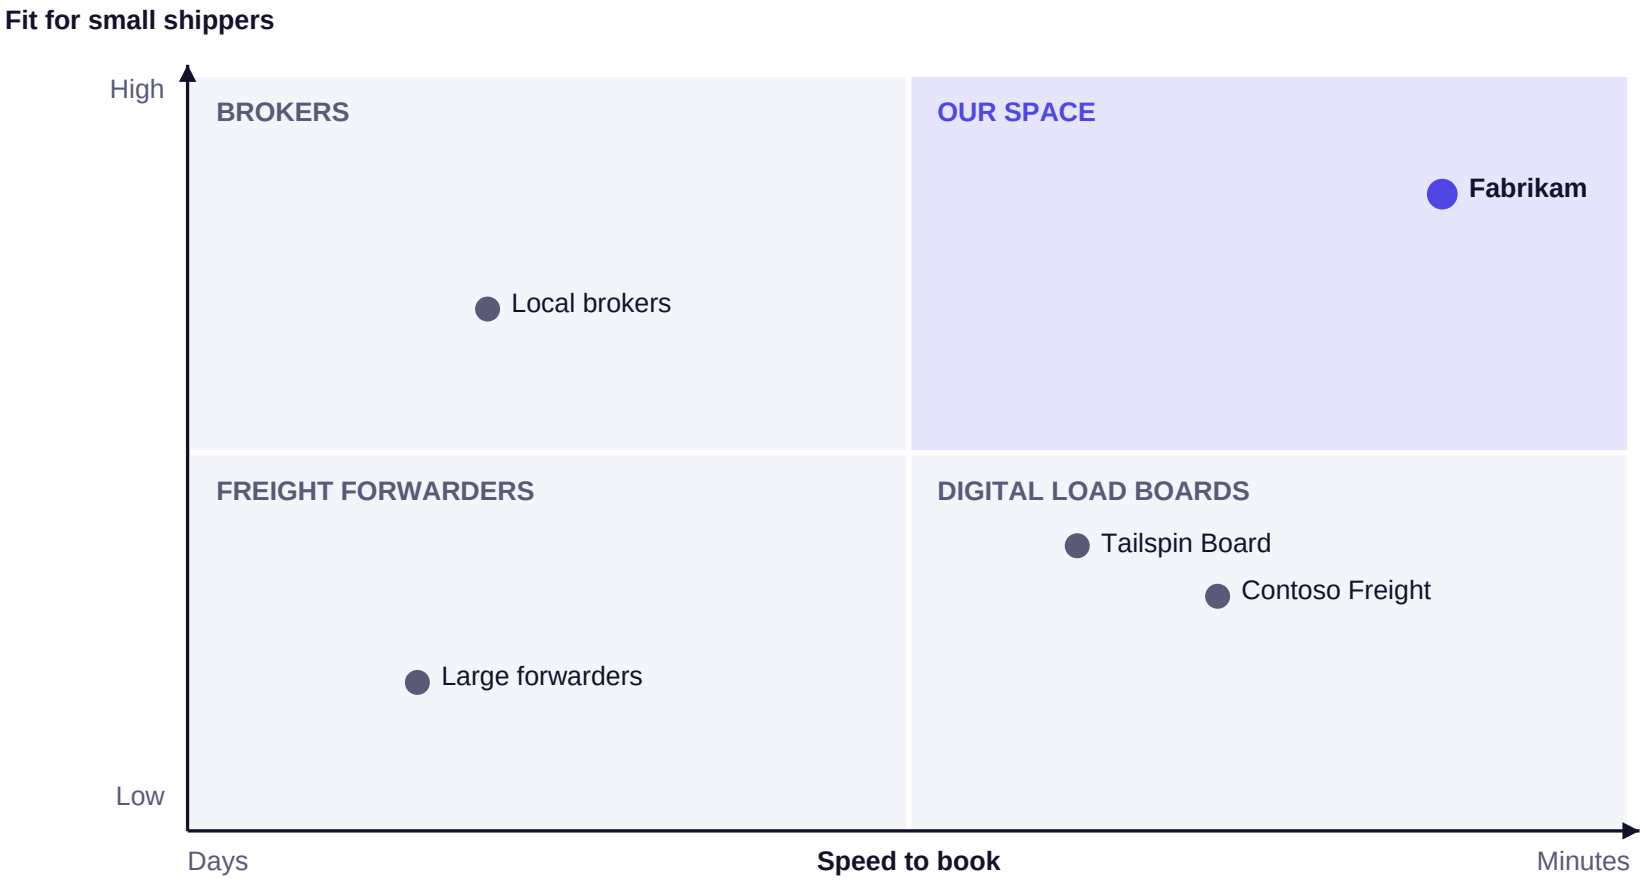

Organic, repeat-driven growth

- 68% of bookings come from returning shippers
- Gross margin per load reached 21% in September

Illustrative data. Source: Fabrikam platform metrics, Sep 2026

COMPETITION

We are the only player that is both instant and built for small shippers

Only Fabrikam books in minutes and is built for shippers moving under 50 loads a month

BUSINESS MODEL

Each load earns a 21% take rate and pays back acquisition in two months

Unit economics	Per load
Average booking value	€310
Take rate	21%
Contribution after payments	€58
Shipper acquisition cost	€115
Payback	2 months

Marketplace economics from day one

- Take rate holds as volume grows because matching improves

THE ASK

€3M seed takes us to three countries and break-even in 2028

DECISION REQUESTED

Raise €3M seed to launch the Netherlands and Poland and reach 25k loads a month

1. **Launch in the Netherlands with two anchor carriers**
   COO · Q1 2027
2. **Ship dynamic pricing v2 and carrier app**
   CTO · Q2 2027
3. **Enter Poland via cross-border lanes**
   CEO · Q4 2027
